

Free Office Spirometry Training

Interested in incorporating spirometry in your clinical practice? The Montana Asthma Control Program provides FREE training on spirometry to Montana healthcare providers. Upon request, we'll give a presentation at your office covering:

- An overview of spirometry
- Indications for office spirometry
- Spirometry and asthma
- Who should be tested
- How spirometry is performed
- Interpreting spirometry results
- Choosing a spirometer
- Spirometry reimbursement

We'll also bring along our spirometer to allow hands-on practice using the device.

Interested in this free training? Contact the Montana Asthma Control Program at asthmainfo@mt.gov or call 406-444-9155.
